FOLDING DOORS

Introducing the Nuvo™ Designer Series™ from Panelfold®

... A new line of contemporary folding doors made for the modern decorator. Three Nuvo models - **Halo™**, **Visio™**, and **Lucent™** - stand out in style while fitting neatly within openings. They feature translucent or transparent panels that allow varying degrees of light to pass through. These durable doors slide quietly along an overhead track, stack compactly, and help to prevent air flow between rooms. Best of all, the Nuvo line is manufactured with the finest materials and craftsmanship, ensuring the same reliable quality customers have come to expect from Panelfold for over half a century.

All Nuvo™ models:

- 5-1/2" wide, 1/2" thick, durable rigid PVC panels
- Satinesque, semi-gloss finishes with lasting color
- Full-height panel connector mouldings, overhead track and track trim exactly match the panel color
- Smooth, quiet operation
- One-year limited warranty
- Easy-to-follow installation instructions

Made-To-Your-Order™ in the USA:

- For opening heights to 8' 6"
- Single doors (for opening widths to 8' 0") or joining doors (for opening widths to 16' 0")
- Double-End-Post option to operate single and joining doors from both ends

Lucent™

The **Lucent™** folding door complements any interior. Timeless creamy-white panels with crystal clear, beveled half lites bring glamour and light into any room.

The Lucent door features designer door knobs in stainless steel color. Matching key lock may be used as a removable key or as a privacy turn to lock door from either side.

White

HALO™

Satin-finished, translucent full lites have a subtle turquoise hue and 1/8" transparent borders to allow moderate visual privacy and a soft, luminescent glow.

Aluminum

Beech

White

VISIO™

Transparent full lites have intermittent, translucent, white satin-frosted squares to allow dramatic visual and lighting effects.

Halo and Visio doors have ADA-compliant designer handles and snap-latch feature.

Aluminum

Beech

White

Halo and **Visio** folding doors are the modern solution for designers looking to save space while permitting light to pass between rooms. For more visual privacy and the added beauty of soft silhouettes, **Halo** features semi-transparent, satin-frosted panel inlays with 1/8" wide transparent borders. For a more luminous view, **Visio** features transparent inlays with semi-transparent, white satin-frosted squares.

Halo and **Visio** doors are available in three contemporary colors:

Aluminum

A satinesque, silver-gray shade that accents modern interiors.

Beech

A versatile mid-tone wood grain color that complements dark and light wood furnishings and blends well with most interiors.

White

A creamy white finish with subtle wood texture providing the appearance of high-end, white lacquered architectural millwork.

How to Order Nuvo™ Designer Series™ Folding Doors

Also from Panelfold®...

CLASSIC DESIGNER SERIES™ FOLDING DOORS

Nuvo™ | designer series™ FOLDING DOORS

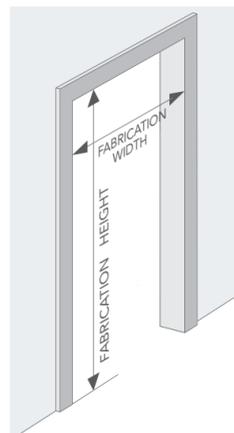

Follow these easy step-by-step instructions for each opening.

1. Measure your opening.

Orders for Nuvo Designer Series folding doors must specify the opening's Fabrication Width and Fabrication Height.

Fabrication Width: The exact measurement between the two finished sides of an opening.

Fabrication Height: The exact measurement from the top of the track (point at which track will be attached at header) to the top of the finished floor or floor covering. Fabrication Height is a critical dimension and must be specified exactly for each door.

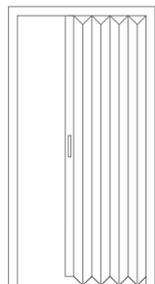

2. Select your desired folding door model:

Halo™, Visio™ or Lucent™.

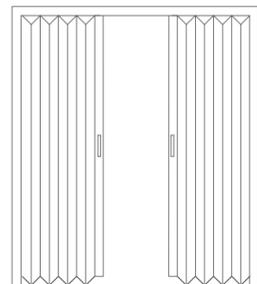

3. Select your desired panel color:

Select Aluminum, Beech or White panel color for Halo and Visio doors. The Lucent model is available in White only.

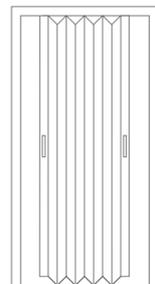

4. Select your desired configuration from the options shown below:

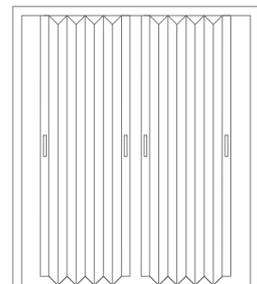

Single Door

Joining Doors

Single Door
with Double End Posts
